ESTABLISHED NINE AND ONE-HALF YEARS

We are paying three different rates of interest to our numbers: 5 per cent per annum on shares withdrawn efore maturity, 6 per cent on special payments, 12 or cent on instruced shares. We pay on demand, al-hough we are entitled to 30 days' notice to withdraw coney, but we never require notice, always paying then requested. Our receptly are now n requested. If receipts are now averaging over \$50,000 thly. We alvance money on real estate on very monthly. We advance money on real estate on very easy repayments, being of great assistance to those who are buying or building. The great and distinguishing peculiarity of this association is the ease and promptness of our business methods, no delay, no red tape, everything done to accommodate and please.

Sr. Louis, Mo., June 30.—A special from Ne-braska City, Neb., says that the Missouri river overflowed its banks about that city yesterday.

Tucson, Aniz., June 30.—A Star special from In talking to a STAR reporter about the Yuma says the Colorado desert basin at Salton, sixty miles west of Yuma, is rapidly filling up with fresh water from a subterranean passage believed to be connected with the Colorado river, caused by the high waters of last February. At last advices it was converted into a lake five miles wide. The machinery is being removed from the salt factories at Salton. The Southern Pacific railroad track passes through the basin for more than fifty miles, its lowest point being 263 feet below the sea level. The Colorado river is 160 feet above the sea level at Yuma. If the subterranean passage connects with the Colorado above Yuma the lake will be over 400 feet in depth and over fifty miles long. If the waters continue to rise the Southern Pacific track will be submerged for nearly 100 miles and the great desert of Colorado will be converted into a vast lake.

A special from Los Angeles says when the story of rising water near Salton, Ariz., first reached the Southern Pacific officials here they paid no particular attention to the rumors, but they finally decided to make an investigation. An Indian runner was sent out with instructions to find where the water leaves the river, if such be the case, and to make a thorough examination as to how it passes through the San Hills and reaches the desert. sixty miles west of Yums, is rapidly filling up

POWDERLY AND OTHERS LIE LOW.

It was learned by the reporter after he had left the Secretary that Mr. Cavanaugh came on from Cincinnati in company with Messra. Powderly, Hayes and Devlin, and, after registering with them at the National Hotel this morning, went to the Treasury Department as a second the salt works. One hundred square

The railroad company have men out to accertain the depth of the water and probable causes. A dispatch from Salton last night stated that a strong wind from the west had just set in, driving the water to the south. The water has not raised any since yesterday noon when it was fourteen inches deep. The thermometer registered in the sun 145 degrees at 5 p.m. The atmosphere was very humid.

AT THE FRANKLIN MINES.

SEATTLE, WASE., June 30.-Matters at Franklin coal mines have assumed a still more threatening form and Col. J. C. Haines yes

ris and Ed. J. Williams, leaders of Sunday's riot.

The first authentic information concerning the riot was received from Franklin. At least 1,000 shots were fired during the riot, which lasted about thirty minutes and resulted in the death of Tom Morris, a white striker, who was killed instantly: Edward J. Williams, who was shot through the abdomen and died six hours later, and the wounding of four strikers, two women and one colored guard. The trouble commenced with the return of the train at 7:50 p.m. from New Castle, which contained a number of Pinkerton men, who had escorted a lot of negroes to the latter mining camp.

When the train had stopped the white miners commenced firing upon the negroes' camp. They were between two fires, as the outside miners were situated on the flats below and on the hill above them. The negroes went perfectly wild and all the efforts of the
